### Friends of the Museum São Brás de Alportel

Friends of the Museum is a multinational, multicultural organisation that arranges a wide range of cultural and social events for the Portuguese and international community in the Algarve. The activities of our members are wide and include: art, literature, dance, music, photography, gardening, bridge, tennis, walking.

There are also a number of talks on e.g. Portuguese History, Art and Literature and on various aspects of the Algarve e.g. fauna, flora and archaeology.

Talks are given in English, Portuguese and German. We organize visits to sites of historical, scientific and general interest in the Algarve.

We have a lending library – as well as our choir and a number of different music groups which play a range of instruments.

Jazz concerts are frequent. Besides painting and photography exhibitions,

Friends of the Museum organise a regular programme of music from contemporary to traditional jazz, through to contemporary sounds and classical music. Regular activities include art classes, ballroom dance, salsa and merengue, bridge, Portuguese language lessons and yoga. There is a lively discussion group, film club and video presentations of operas.
